To minimise the impact on both you and your pets, it's essential to be prepared and understand how to respond. When creating your emergency plan, remember to include provisions for your pets.

An emergency Pet Preparedness Pack is a pre-packed bag that contains essential items to care for your pets during a short evacuation. The contents of your pack will vary depending on the type and number of pets you have. Remember to review your Pet Preparedness Pack at least once a year, replacing perishable items like food as needed.
